

Math and Literature, Grades 2-3

By Marilyn Burns, Stephanie Sheffield

Math Solutions Publications, United States, 2004. Paperback. Book Condition: New. 272 x 211 mm. Language: English . Brand New Book. From Quack and Count to Harry Potter, the imaginative ideas in children's books come to life in math lessons through this unique series. Each resource provides more than 20 classroom-tested lessons that engage children in mathematical problem solving and reasoning. Each lesson features an overview, materials required, and a vignette of how the lesson actually unfolded in a classroom. This book includes a reference chart indicating the mathematical concept each lesson covers, such as number, geometry, patterns, algebra, measurement, data analysis, or probability. Topics include counting, sorting, addition, subtraction, money, measurement, and patterns.

Reviews

The ideal ebook i actually study. It is among the most incredible book we have study. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Boyd Steuber**

A must buy book if you need to adding benefit. Of course, it is actually perform, still an interesting and amazing literature. I am delighted to explain how this is basically the best book i actually have read through during my individual life and may be he best book for at any time.
