Pursuant to a congressional request, GAO evaluated the incremental cost of Operations Desert Shield and Desert Storm, focusing on: (1) the executive branches cost estimates and funding requirements for the operations; (2) the extent to which the United States needs to provide any additional funding; and (3) how the Department of Defense (DOD) and the individual services tracked the operations costs. GAO found: (1) the Office of Management and Budget (OMB) cost estimate of 47.5 billion for Desert ShieldStorm was overstated due to higher-than-actual costs incurred by revolving fund accounts, overestimated maintenance needs, replacement of recoverable munitions, and procurements that were cancelled due to the operations short duration; (2) foreign contributions to the Defense Cooperation Account should total 48.3 billion, almost 800 million more than the OMB funding requirement estimate, and assuming that countries continue to fulfill their pledges, the 15 billion appropriated to the Persian Gulf Regional Defense Fund will not be needed; (3) tracking incremental costs for the operation was difficult because the services only captured total costs at the unit level and did not subtract the costs they would have normally incurred had there been no crisis in the Persian Gulf; and (4) cost data are aggregated into broad and general categories that make it difficult to verify whether or not specific costs have been properly charged to the operation. This item ships from La Vergne, TN. Paperback.
