The inevitable is sometimes painful. A tooth's life is never easy. It puts up with multitudes of abuse. From the acidic effects of the atrocious Pepsi, to the sugary sweetness brought about by chocolate, its pain knows no bounds. Immersed in darkness, it's rare for a tooth to see the light. Living a solitary life, each day blends into the next without the hope of seeing something new. Death and decay is a certainty many see on a day to day basis. Survival is the key to living a long, pain-free life. When that very option is threatened, it's the tooth's obligation to make his beloved caretaker see the light. The hope of garnering a longer lifespan is a must, as is a trip to the dentist. The question is, how can one measly tooth bring about a much needed change without causing any further pain in the process?.
