Is that the basic concern mechanically of what is going on NSLEE Mr. I. Given my test scores in freshman chemistry, I may not be the proper person to ask that question to, but generally speaking, yes. I actually dont know if it is conveyed through rain or just some partial pressure driving the CO₂ to go into solution, 2 and the chemists behind me will answer that. And I should point out that when we say it becomes more acidic, it actually becomes less base, because the ocean is actually in base conditions, and it reduces the pH, a very small number. On a logarithmic scale that is about a 30 percent increase in those ions that would be, acidic. So it is definitely a corrosive, though, for biological, anything forming a calcium-base system, and that is where the real problem...
