Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. Sam Peel (illustrator). 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.A puppy born without the ability to bark; A veterinarian who believes that dogs could talk, given the right surgery; A scientist who specialises in growing tissue. Add these together and the result is a dog with a unique ability and an attitude problem. That means a confused family, offended neighbours, and some very scared cats! === This is a book for children aged around 8-12 years of age. It is a happy story, with some mild danger. It addresses bullying and settling in at a new school. === Reviews: This is one of those books that you just don t want to put down. From the first page it was great. My kids enjoyed listening to this and it prompted a very nice lengthy discussion after we were finished with it. I would highly recommend this book to parents. Although this is a longer book, I found it a nice way to spend an afternoon with my kids. This is a perfect family book. Who wouldn t want to have a speaking dog and learn to know what his/her furry friend really thinks? The book also gives a lot of opportunities for (grand)parents that read this book with their (grand)children to start conversations about so important topics like bullying in an easy way. Highly recommended! ===.
