

Classes for Gifted Children; An Experimental Study of Methods of Selection and Instruction

By Guy Montrose Whipple

Theclassics.Us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1919 edition. Excerpt: . by the class teacher. The Binet testing has already been sufficiently clearly explained. Readers will understand that it yields two values with which comparison may be instituted--the absolute mental age and the relative mental age, or I. Q. Median Test Percentile of Each Pupil 8in the Special Fifth and Special Sixth, Together With Rank in Intelligence QuoHent, Mental Age and Teacher-s Estimate B. THE TEACHER S ESTIMATES OF INTELUGENCE The estimate of intelligence by the teacher of the Special Group was undertaken with all the precautions, and following rather closely the directions, suggested by Stern. The 30 cards containing the names of the pupils were arranged by her in order of estimated general intelligence on November 7, 1916, again on December 16, 1916, and finally on June 6, 1917. In making these rank-orders the teacher did not refer to the pupils school marks,...

Reviews

This composed book is excellent. it was actually writtern very perfectly and valuable. I found out this book from my i and dad advised this book to learn.

-- **Maymie O'Kon**

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
